# FY-25 HQMC Transportation Account Code Guidance Addendum

Deputy Commander,  
Installation and Logistics  
Logistics Distribution and Policy  
1 October 2024

Correlates to MCO 4610.37G MCO Transportation Account Code  
Policy TAC Reference

Subj: PUBLISHED MARINE CORPS TRANSPORTATION ACCOUNT CODE (TAC)

1. Situation. This document identifies specific TACs managed under HQMC Second Destination Transportation (SDT) Centrally Managed Accounts. The TACs found in this document supports funding of shipments explicitly tied to Overseas Contingency Operations (OCO), Marine Corps Maritime Prepositioning, Marine Corps System Command (MARCORSYSCOM), Marine Corps Logistics Command (MARCORLOGCOM), and other distinctive Program TACs, as well as personal property TACs (other than local use TACs). TAC listings omitted from the document includes locally funded transportation TACs, Marine Forces and Command Transportation TACs, Training/Relocation TACs for Marine Forces - Reserve, Personal Property (PPTY) TAC - Locally Funded, Navy Funded Shipment TACs, Navy Working Capital Fund (NWCFF) TACs, and Special TACs. To view and/or obtain authorization to use TACs intentionally omitted from this document, contact the respective TAC/Resource Manager as identified in this document.

The intent of the Addendum is to list TACs as outlined in the paragraph above; initiate TAC use at the start of each fiscal year; to update functional information related to each TAC application and operational use; and update any administrative changes to the current version of MCO 4610.37 until required to overhaul in compliance with the ARDB revision process.

2. Coordinating Instructions

a. Shipping activities shall cite only the applicable TAC as extracted from the current version of the HQMC Transportation Account Code Guidance Addendum. The Addendum can be found on the Installation and Logistics homepage, under the LPD library. Where required, shipping activities shall coordinate all TAC usage and application on all shipping documentation used in the transportation of Marine Corps materiel through the applicable TAC resource manager.

b. The TAC information, specifically the appropriate TAC funding the transportation movement, must be provided in the transportation clause of all contracts pertaining to both centrally funded and locally funded purchases.

c. If assistance is required, contact in ascending order the TAC/Resource Manager responsible for the program corresponding to a desired TAC, access The Transportation Global Edit Table of desired TAC/program for use, or lastly contact HQMC LPD-3 (LPD-3), DSN 225-9041 or commercial (703) 695-9041.

d. Recommendations concerning the guidance within this document may be forwarded to HQMC (LPD) via the appropriate chain-of-command channels.

Enclosure: United States Marine Corps Cargo and Personal Property  
Transportation Account Code (TAC) Data Guidance

## Chapter 1

### General Guidance

1. This document identifies Headquarters Marine Corps (HQMC) Centrally Funded (CF) Second Destination Transportation (SDT) TACs, Overseas Contingency Operations (OCO) TACs, and Personal Property (PPTY) (not locally funded) TACs. The chapters and descriptions correlate to the current version of the MCO 4610.37.
2. SDT TACs for shipments of locally funded transportation (i.e., unit initiated transportation movement or agreed to fund movement), Marine Forces and Command transportation, Training/Relocation of Reserves, Personal Property-Locally Funded, Navy Funded shipments of Marine Corps material, Navy Working Capital Fund, and Special TACs that are unique and for exclusive use are not listed in this document. All shipments that fall within any of the aforementioned categories must be contacted directly for assignment of valid and authorized TAC usage.
3. Transportation services, including all small package and express transportation requirements, must be procured only through authorized shippers, such as DMOs, Installation Transportation Offices (ITOs), etc.
4. All Marine Corps freight and personal property shipments throughout the commercial transportation system and the Defense Transportation System (DTS) require a four-character TAC assigned from HQMC in lieu of a Line of Accounting (LOA) or Standard Document Number (SDN). Issues involving use of LOAs instead of an assigned TAC should be brought to the United States Marine Corps (USMC) TAC Coordinator's attention.
5. The Transportation Global Edit Table (TGET) is the authoritative source for all DoD TACs and LOAs. TGET contains an updated live listing of Marine Corps TACs allowing shippers to verify most current usage applicability, validity dates, and descriptions. All USMC shipping sites must have access to TGET. TGET website: <https://beis.csd.disa.mil/beis-html/frontpage.html>

NOTE: TAC establishment must be categorized in general as Freight, Personal Property, and Non-Temporary Storage. The idea behind and in support of this general means of establishing TACs is to allow for automated population of charts of accounts via TGET.

6. Marine Corps DMOs will not accept a request for shipment of Marine Corps materiel without a valid TAC, per reference (d). The DMO is responsible to determine if the TAC provided is the appropriate TAC. All TACs, regardless of Service distinction, should be reviewed in TGET prior to forwarding shipments into the DTS or the Third Party Payment System (TPPS). DMOs should refer customers to the sponsoring TAC/Resource Manager or Service TAC Coordinator for assistance.

7. For locally managed/unit level transportation funded shipments, comply with the following as applicable:

a. Non-Military Standard Requisitioning and Issue Procedures (NON-MILSTRIP) Shipments.

- 1) For USMC originated shipments being serviced by a USMC DMO using USMC Funding, the source documentation to procure transportation services is the Universal Purchase Request (UPR) in lieu of DD form 1149. When using the UPR the customer is not required to provide an Authorization To Procure Transportation Services Letter or a Letter of Authorization, as the UPRs signatories possess the required authorizations and delegations to procure transportation services on behalf of the requesting unit.
- 2) For USMC originated shipments being serviced by a USMC ITO/DMO using Navy Funding, the source documentation to procure transportation services is the DD form 1149. Additionally, to be serviced by a USMC ITO/DMO, the customer must have an Authorization To Procure Transportation Services Letter or Letter of Authorization on file with the supporting ITO/DMO. The letter must identify personnel authorized to procure transportation services (sign the DD form 1149) via Appointment/Termination Record (DD form 577) and Notice of Delegation of Authority (NAVMC 11869). Failure to provide this letter will result in a decline in service by the servicing ITO/DMO.

- 3) For USMC originated shipments being serviced by other services. Please defer to the servicing ITO's SOP for determining the source documentation used to procure transportation services.
- 4) For other services being serviced by a USMC ITO/DMO, the source documentation to procure transportation services is the DD form 1149. Additionally, to be serviced by a USMC ITO/DMO, the customer must have an Authorization To Procure Transportation Services Letter or Letter of Authorization on file with the supporting ITO/DMO. The letter must identify personnel authorized to procure transportation services (sign the DD form 1149) via Appointment/Termination Record (DD form 577) and Notice of Delegation of Authority (NAVMC 11869). Failure to provide this letter will result in a decline in service by the servicing ITO/DMO.

b. Military Standard Requisitioning and Issue Procedures  
(MILSTRIP) Shipments.

- 1) For USMC originated shipments being serviced by a USMC DMO, the source documentation to procure transportation services is the DD form 1348 (containing funding data) via GCCS-MC. DD form 1149 is not required. Additionally, to be serviced by a USMC ITO/DMO, the customer must have an Authorization to Procure Transportation Services Letter or Letter of Authorization on file with the supporting ITO/DMO. The letter must identify personnel authorized to procure transportation services (sign the DD form 1149) via Appointment/Termination Record (DD form 577) and Notice of Delegation of Authority (NAVMC 11869). Failure to provide this letter will result in a decline in service by the servicing ITO/DMO.
- 2) For USMC originated shipments being serviced by other services. Please defer to the servicing ITO's SOP for determining the source documentation used to procure transportation services.

8. Second Destination Transportation (SDT) charges for Marine Corps materiel will be charged to the fiscal year in which the cargo is shipped, regardless of the year in which procurement is initiated.

9. Personal Property (PPTY) transportation charges, as defined in chapter 9, will be charged to the fiscal year identified on the member's Permanent Change of Station (PCS) orders issue date. Personal Property (PPTY) for locally funded moves must be coordinated through the TAC/Resource Manager.

10. Payments concerning accessorial charges for packing, crating, and handling will not be made on recurring reimbursement issues or non-reimbursable transfers of materiel, supplies, and equipment to other DoD components. This is not applicable to sales and transfers of materiel to the Military Assistance Grant Aid Program and the Foreign Military Sales (TAC/RESOURCE MANAGERS) program. See reference (e) of this MCO for additional information regarding this Order.

11. Procedures for the shipment of excess personal property, along with guidance on agency responsibility for the payment of transportation charges, are contained in reference (f) of this MCO.

12. Commercial shipments, including small parcel and express shipments, guidance and requirements.

a. DoD shippers have established TPPS (known as Syncada) accounts to pay for transportation charges of commercial cargo movements in lieu of manual Government Bill of Lading (GBL).

b. All USMC units and organizations requiring express transportation services must coordinate through an authorized shipper (DMO/ITO/etc.) for procurement and payment support.

c. TPPS accounts will only be issued to authorized USMC DMOs or at the discretion of HQMC LPD to support unique requirements. TPPS access may be granted to TAC/Resource Managers to view transaction level detail.

d. Any installation specific requirements and permissions will be vetted through and authorized at the discretion of the DMO.

e. Manual Commercial Bills of Lading (CBLs)/GBLs will be submitted to Transportation Voucher Certification Branch (TVCB), Marine Corps Logistics Command (MCLC) Albany, GA, with a Standard Form (SF) 1034 (Voucher for Disbursement and/or Collection). The DMO will ensure that the TAC is annotated prior to submitting to TVCB for payment. For additional

assistance, please contact TVCB at DSN 567-6575 or commercial (229) 639-6575.

13. Military Airlift (MILAIR), Air Mobility Command (AMC)  
Channel requirements

a. The Air Clearance Authority (ACA) Policy message reference (g) outlines the detailed procedures regarding shipment clearance and processing.

b. In cases where the ACA denies use of MILAIR and the transportation will be funded by HQMC managed SDT, the program, product, or item manager may submit a request to the HQMC SDT funds manager through the first General Officer (GO) or Senior Executive Service (SES) civilian in his or her chain of command for use of MILAIR. The ACA must be contacted to fully adjudicate all MILAIR request denials prior to submitting this request.

14. Please direct all questions, clarifications, and issues to  
the United States Marine Corps (USMC) Transportation Account  
Code (TAC) Coordinator at:

Commandant of the Marine Corps (LPD-3)  
ATTN: Marine Corps TAC Coordinator  
Headquarters, U.S. Marine Corps  
3000 Marine Corps Pentagon Room 2E211 Washington, DC  
20350-1775  
DSN 225-9041; Commercial 703-695-9041

15. TACs, other than HQMC centrally managed SDT, are removed from the MCO to better manage their usage by steering requesting users to designated TAC owners for authorized use and to better comply with Financial Improvement and Audit Readiness (FIAR) guidelines. TAC descriptions have been left in to guide users to a logical point of reference to locate an applicable TAC. Inquiries to TAC selection, validity, and authorized use are obtained by contacting the TAC/Resource Manager associated to the program description comparable to the shipment. The TGET is the user's next point for reference assistance. When the shipper's consultation with the appropriate TAC/Resource Manager and research of TGET prove unsuccessful, the shipper should contact the Marine Corps TAC Coordinator for assistance.

16. HQ USMC Centrally Funded SDT TACs are approved for use with the annual release of the updated HQMC Transportation Account

Code Guidance Addendum. Additionally, this paragraph meets any requirement of written approval for their use.

17. The Transportation Financial Management Section (LPD-3) under the Logistics Distribution Policy Branch serves an intricate point of contact in creating, changing, and deleting TACs. However, all related engagements to create, change, or delete TAC(s) must first be routed from the Unit/Command to the G8/Comptroller who accomplishes the TAC to POET Crosswalk Template. The G8/Comptroller completes the TAC to POET Crosswalk Template and leaves the TAC field blank. LPD-3 will populate the TAC field. LPD-3 will construct the 4-position alpha numeric TAC and annotate it appropriately in the TAC to POET Crosswalk Template field before forwarding it to the RFX Alias Team. The RFX Team loads the POET Alias Table In DAI for update/view to associated systems (i.e., TGET, SYNCADA, CMOS, etc.).

Chapter 2

Transportation Account Code (TAC) Decision Support Matrix

The purpose of this chapter is to guide a user to the most relevant chapter for more information: it is not to determine that the appropriate TAC will be located in that chapter. Specific shipment requirements will dictate whether the appropriate TAC is located in the chapter identified. If unsure, all questions should be directed to the USMC TAC Coordinator.

Determine your requirement by answering the following questions:	..and following these instructions:	
QUESTION	IF YES..	IF NO..
1. Does this shipment support a Marine Corps requirement/requisition (identified by a M or L in the first position in the TCN, unit, activity or member)?	Go to next question.	Should be funded by another service or agency. See other service TAC coordinator. (Refer to chapter 14, Points of Contact & Reference Info).
2. Is the shipment personal property?	See chapters 9 and 10 for Personal Property TACs.	Go to next question.
3. Is this a current fiscal year movement?	Go to next question.	If not, consult appropriate fiscal year MCO 4610.37.
4. Is the shipment in support of a procurement or from a vendor? (See FDT chapter for definition.)	See chapter 3, FDT TACs.	Go to next question.
5. Is the shipment in support of a contingency operation effort?	See chapter 5, OCO TACs.	Go to next question.

6. Is the shipment part of a unit move/deployment in support of a contingency operation (or) Fleet Commander directed deployment / training exercise?	See chapter 11, Navy Funded Shipments TACs.	Go to next question.
7. Is the shipment in support of the Marine Corps and funded by the Navy (e.g., Marine aviation support)?	See chapter 11, Navy Funded Shipment TACs.	Go to next question.
8. Is the shipment sponsored by the Marine Corps Reserve?	See chapter 8, Training/Relocation - Reserve TACs.	Go to next question.
9. Is the shipment in support of locally administered contracts, Administrative Small Package and Express shipments, local moves, general office supplies, or other locally funded transportation costs?	See chapter 6, Locally Funded TACs.	Go to next question.
10. Is the shipment in support of an exercise or training?	See chapter 7, Marine Forces and Command TACs or chapter 12, Special TACs Joint Chief of Staff (JCS).	Go to next question.
11. Is the shipment in support of a particular Marine Corps program or project (e.g., MARCORSYSCOM, Secondary Repairable, Pre-position)?	See chapter 4, HQMC SDT TACs.	Go to chapter 13, Special TACs and/or contact USMC TAC Coordinator.

Chapter 3

First Destination Transportation (FDT) Transportation Account  
Code (TAC)

1. Definition. FDT is that transportation required to deliver new, an upgraded model, or recapitalized production items from the manufacturer's plant or source of procurement to the first point of delivery where the Military Service or Defense Agency takes possession and/or ownership of that item. The procurement source, as used herein, is any supplier outside the DoD supply system or any DoD industrial activity that fabricates new materiel. The procurement source or the first point of delivery may be in the Continental United States (CONUS) or overseas. FDT is not applicable to components or items reworked by an industrial activity. In the case where the Government accepts the production item at the manufacturer's plant or source of production and legally owns the item, FDT extends to the first point of delivery for either use or storage by the Military Service or Defense Agency. For shipments destined to overseas locations that will enter the Defense Transportation System, FDT terminates at the port of embarkation (CONUS or overseas).

2. Points of Contact. Submit all FDT TAC requests to  
**MCSC\_FDT\_TAC\_REQUEST2@USMC.MIL**

For any unresolved issues or questions, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041).

Chapter 4

Headquarters Marine Corps (HQMC) Centrally Funded Second  
Destination Transportation (SDT) Transportation Account Code  
(TAC)

1. Definition. HQMC managed SDT Transportation of Things (TOT) is required to move Marine Corps standard operation sustainment materiel from, to, or between service/agency activities worldwide, once the government owned item has reached the first point of use or storage (CONUS or Overseas), and supports the programs identified in this chapter. HQMC SDT is not authorized for any other purpose without HQMC SDT approval.

If the shipment is an Overseas Contingency Operation (OCO) requirement, refer to chapter 5.

2. Headquarters Marine Corps (HQMC) SDT Funding Restrictions. HQMC SDT funding, to include TAC use, is not authorized for use in the following scenarios:

- a. Navy Funded categories listed below
- b. Locally administered contracts
- c. Urine samples by the Naval Medical Command or Naval Medical Command-sponsored activities
- d. Base Operations, including Marine Corps Aviation Activities
- e. Funding of any program or activity not in direct support of the SDT program
- f. Support of Household Goods requirements to include transportation of materiel or systems support
- g. Augmenting or sustaining programs or requirements external to the HQMC managed SDT program

3. Navy Funded Shipments. The following categories are funded with Navy TACs:

- a. Transportation of aviation materiel, to include Marine Corps Forces (MARFOR) organic aviation equipment and Navy-procured aviation materiel, unless instructed otherwise by Commandant of the Marine Corps (CMC) directive.
- b. Marine Corps Unit Moves and Deployment/Redeployments
- c. Deceased Marines

4. Second Destination Transportation (SDT) Transportation Account Code (TAC) Order of Precedence. In the event that a shipment falls into more than one HQMC SDT Category, the following order of precedence should be followed:

- a. Overseas Contingency Operation TACs
- b. Marine Corps Maritime Prepositioning Programs TACs
- c. MARCORSYSCOM Program Manager (PM) TACs
- d. MARCORLOGCOM Inventory/Item Manager TACs
- e. Other Program TACs

5. Marine Corps Systems Command (MARCORSYSCOM) Program Transportation Account Codes (TACs)/Marine Corps Logistics Command (MARCORLOGCOM) Inventory/Item Transportation Account Codes (TACs)

a. MARCORSYSCOM Program TACs are used to fund new equipment fielding transportation requirements (not to include FDT) and movements as MARCORSYSCOM directs. If the transportation requirement is the result of Program Manager purchases from a vendor, refer to chapter 3 for a FDT TAC.

b. MARCORLOGCOM inventory/item TACs are used to fund transportation requirements to include scheduled repair cycles, special maintenance needs, equipment rotation, cross-leveling of materiel among bases or stations, replaced equipment disposition, divestiture, and other movements as MARCORLOGCOM directs.

6. Second Destination Transportation (SDT) Ammo Movements Transportation Account Codes (TACs)

a. Commanders at all echelons will review their Class V(W) training requirements based on their annual allowances and forecast their requirements in Total Ammunition Management Information System (TAMIS) by location per applicable user's manuals.

b. For training at Marine Corps locations, properly forecast requirements at least 60 days prior to training dates.

c. For training at Army locations, properly forecast requirements in TAMIS prior to the "lockout period" defined by the Major Army Command (MACOM) policy and Army Regulation (AR) 5-13 which states current month plus two months (if the lockout is two months, in July the lockout period is July, August, and September).

d. Activities failing to properly forecast routine ammunition requirements at Marine Corps Bases, Army Installations, or other locations will incur costs for premium shipping associated with that training.

e. Failure to properly forecast transportation movements may result in premium transportation costs being applied to the unit's local O&M funding line.

f. Operation tempo may preclude full compliance with forecasting Class V(W) training requirements. These exceptions should be coordinated with MARCORSYSCOM, PM Ammo as soon as the requirement becomes known. Premium shipment costs in support of legitimate emergent requirements will not be charged back to the higher headquarters TAC.

g. The POC for all Ammo TAC issues is MARCORSYSCOM, PM Ammo, Operations Team: 703-432-8757 (DSN 378)

7. SDT TACs are categorized as prepositioning, MARCORSYSCOM, MARCORLOGCOM, and other program TACs.

Preposition TACs FY25		
Preposition TAC	TAC Description	TAC Purpose
M2PA	Maritime Prepositioning Ships (MPS)	Preposition shipments directed by MARCORLOGCOM
M2PB	Marine Corps Prepositioning Program-Norway (MCPN-N)	Preposition shipments directed by Blount Island Command (BIC)
M2AP	Ammo Prepositioning	Preposition ammo shipments directed by MARCORSYSCOM

Table 4.1.-- Identifies SDT TACs associated with Pre-positioning usage as listed by description and purpose.

MARCORSYSCOM FY25 - New Equipment Fielding TACs			
Command	PM#	PMM Description	TAC
PEO Land System	PMM 202	Marine Air Ground Task Force Command & Control (MAGTF C2)	M2SB

Other Program:	TAC:	Purpose:
Marine Corps Exchange	M2CX	Shipment is an Over-Ocean HQMC SDT requirement in support of Marine Corps Exchanges. Non Appropriated Funds (NAF) Funds are used for inland movement.
Marine Corps Community Services	M2CS	Shipment is an Over-Ocean HQMC SDT requirement in support of Officer/Enlisted Clubs and or Recreation Facility Operations. Non Appropriated Funds (NAF) Funds are used for inland movement.
Secondary Repairables	M2QE	Shipment is a HQMC SDT requirement in support of Marine Corps secondary reparable Ready for Use materiel (with condition code A, B, or C).
	M2QD	Shipment is a HQMC SDT requirement in support of Marine Corps secondary reparable Not Ready for Use materiel (excludes condition codes A, B, or C).
General Services Administration (GSA)	M2CC	Shipment is a HQMC SDT requirement in support of the Over-Ocean movement of General Services Administration (GSA) materiel.
HQMC SDT Consolidated Storage Program (CSP) - Defense Property Accountability System (DPAS)	M2CA	Shipment is a HQMC SDT requirement which supports shipments assigned under the CSP - DPAS.
Reallocation of AIT Assets	M2CB	Shipment is a HQMC SDT requirement.
Humanitarian Assistance	MZxx	To be identified by MC TAC Coordinator when warranted. The Xs are place holders; do not use. Contact LPD-3 for correct TAC usage.
Presidential Drawdown	M2UA	Presidential Drawdown of Ammo
Presidential Drawdown	M2UX	Presidential Drawdown of Equipment

8. Point of Contact: For Marine Corps SDT shipments that do not apply to any of the aforementioned Marine Corps SDT TAC categories and any unresolved issues or further questions, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041).

## Chapter 5

### Overseas Contingency Operations (OCO) Second Destination Transportation (SDT)

1. Definition. OCO SDT is required to move materiel from, to, or between service/agency activities in support of designated operations after the cargo has reached the first point of use, storage or a port of embarkation (CONUS or Overseas). OCO SDT funding is either the responsibility of the Navy, HQMC, or the MARFOR Command/local sources.

Not all OCO SDT shipments are funded with HQMC OCO funds. If the shipment is a HQMC payable charge and OCO related, a HQMC OCO TAC is appropriate; however, if it is locally payable then a local TAC will be used.

### 2. Overseas Contingency Operations (OCO) Deployments and Redeployments

a. OCO deployments and redeployments apply to the relocation of forces and materiel to desired operational areas and return to home station. Deployment encompasses all activities from origin or home station through destination, specifically including intra-continental United States, inter-theater, intra-theater movement legs, staging, and holding areas. Redeployment encompasses all activities from the deployed location back to the unit's home station.

b. Per reference (h) (NAVSO P-1000), the Navy's Fleet Commander is responsible for funding all Marine Corps unit OCO deployments and redeployments.

(1) Contact COMPACFLT N02F134, telephone 808-474-5862, for TAC assignment and authorization usage for I and III Marine Expeditionary Force (MEF) Units and Attached Reserve Units redeploying/deploying by all modes with Unit Line Number (ULN) or Time Phased Force and Deployment Data (TPFDD) cargo.

(2) Contact Fleet Forces Command, telephone 757-836-6917 or 757-836-6967, who will assign the TAC and provide authorization to use against II Marine Expeditionary Force Units and Attached Reserve Units redeploying/ deploying by all modes for ULN of TPFDD cargo movements, to include MRAPs.

### 3. Intra-Theater Lift

a. Intra-theater lift applies to cargo shipped within the United States Central Command Area of Responsibility (CENTCOM AOR).

b. Regarding Intra-theater lift ONLY, United States Army Central (ARCENT) is responsible for all surface transportation and the Air Force is responsible for all air transportation. The Marine Corps is responsible for any Intra-theater commercial shipments, whereby that mode of transportation should be used only after all other modes have been exhausted.

4. Personal Effects (PE), Personal Protective Equipment (PPE) and Unit Property.

a. PE is defined as articles of individual uniform clothing, civilian clothing, and other personal items not herein defined which are normally separate from the bulk of Household Goods (HHGs) and personal baggage. This includes all items of property known to be owned by the service member that are found in the workspace, assigned camp or quarters.

b. PPE is defined as individual combat clothing and equipment with the primary purpose to protect individuals from injury in combat. PPE includes helmet, modular protective vest, small arms protective inserts, eye protection, and/or any other government approved purchased and issued protective equipment.

c. Shipment of PE and PPE will vary depending on the status (Killed in Action (KIA), Wounded in Action (WIA), etc.) of the owning Marine. Instructions for ship-to locations are located in Chapter 23 reference (i). For shipment of PE or PPE that does not accompany the Marine, the following paragraph (d) TACs will be utilized. Bluebark funding will be used once orders are created.

d. Shipments of unit property that are shipped separately from the unit deployment or redeployment. PE and PPE shipments that are not directly related to WIA/KIA, emergency leave, or MEDVAC are the responsibility of the unit. If the unit does not agree to pay for the transportation of an individual's PE, PPE, 782 gear, etc. separately from the unit's deployment and/or redeployment, it will be the member's responsibility to procure transportation.

TAC:	Purpose:
MTQG	PPE shipments that were not shipped with the deceased/wounded in action/missing in action member, as well as Marines and escorts designated from the CENTCOM AOR to the Casualty Assistance Call Officer (CACO).
Chapter 7 for Unit TAC	PE, PPE, Unit Property, 782 or (Central Issue Facility (CIF) gear, etc. that was not shipped with the unit's deployment or redeployment. Not related to WIA/KIA, emergency leave, or medical evacuations.

5. Overseas Contingency Operations (OCO) Sustainment.

Shipments needed to meet operational support requirements and sustain the system in the most cost-effective manner over its total life cycle and is funded by HQMC TACs, contact LPD-3.

6. Overseas Contingency Operations (OCO) Retrograde. The process for the movement of non-unit equipment and non-TPFDD materiel from a forward location to a reset (replenishment, repair, or recapitalization) program outside the CENTCOM AOR.

7. The movement of theater-specific equipment, either destined to or retrieval from stored warehouse, as part of the MEU Augmentation Program-Kuwait (MAP-K), use the below TAC:

TAC:	Purpose:
M2PD	Movement of material to/from the warehouse under MAP-K.

8. The movement of Task Force Southwest Retrograde material, use below TAC:

TAC:	Purpose:
M2XA	Enterprise level application of material returning from AOR under LOGCOM direction.
M2XB	PSAB Ground Equipment retrograde to LOGCOM

9. Point of Contact. For any unresolved issues or questions, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041). The Marine Corps TAC Coordinator will provide TACs for HQMC SDT OCO funded movements.

Chapter 6

Locally Funded Transportation Account Code (TAC)

1. Definition. The following information pertains to use of local Operation and Maintenance Marine Corps (O&MMC) funds to support transportation requirements, to include movement of administrative materiel, of local base and station operations and tenants as directed by the local installation/command levels. Contact the appropriate TAC/Resource Manager listed below for TAC assignment, authorization and funding use. TAC/Resource Managers will provide a letter of authorization to all users of locally funded movement.

3. Point of Contact. Contact, in the following listed order, the TAC/Resource Manager that most closely corresponds to the program description of the shipment requiring movement; next access and reference the Transportation Global Edit Table (TGET) of desired TAC/program for information and use; lastly, and for any unresolved issues or questions, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041).

Chapter 7

Marine Forces and Command Transportation Account Code (TAC)

1. Definition. Marine Forces and Local Command TACs are used for shipping Marine Corps unit property and personal effects; as well as, support of Marine Corps-funded Air Mobility Command (AMC) channel and SDDC over ocean/port handling support of MARFOR ground/air unit relocation.

a. Unit property includes personal property, non-government issued material, 782 gear, and personal protective equipment. Units requiring transportation support for return shipments are required to fund materiel movement. Additionally, all items including admin material, regardless of the method of purchase or type of funds used, will be accounted for on unit property records and have associated HQMC allowances formally established in SASSY, Mechanized Allowance List (MAL). DMOs are required to reject any shipments that do not have prior approval from TAC owner.

Example: A squadron in MCAS Yuma, AZ, authorizes the movement of a CONEX container to a base unit in Camp Lejeune, NC to be temporarily used for storage. Although the shipping unit originates the move, the locally funded TAC for the receiving unit would be used. Higher headquarters did not direct this move therefore HQMC SDT funds are not approved for this move. **LOCAL TAC REQUIRED.**

b. Training/relocation transportation for MARFORCOM and MARFORPAC movements via Air SAAM/Channel Mode from point of origin to point of destination, including costs related to the onload and offload of personnel and cargo are in accordance with reference (j). Training/relocation TACs and SAAM number series are assigned for the exclusive use of MARFORCOM and MARFORPAC to be used for Marine Corps-funded AMC and SDDC support of MARFOR ground unit movements (i.e., Unit Deployment Program (UDP)\*\*) and support of COMMARFORPAC and COMMARFORCOM funded training (Program 2A Funding applies).

c. The following SAAM numbers are assigned for the exclusive use of the listed activities:

Activity	SAAM Nos.
HQ, Marine Corps	4300 - 4350
MARFORPAC	4000 - 4099

CG I MEF	4100 - 4149
CG III MEF	4150 - 4299
MARFORCOM	4500 - 4599
CG II MEF	4600 - 4699
MARFORRES	4700 - 4799
MARFOREUR	4351 - 4399
MARFORAF	4400 - 4449
MARFORSOUTH	4450 - 4499
MARCENT	4800 - 4899
MARCORLOGCOM	4900 - 4999

\*\* See reference (j) for construction of UDP Temporary Additional Duty (TAD)/per diem/entitlements appropriation data.

\*\*\* See Chapter 1 paragraph 5.a. for specific establishment and TAC use based upon established chart of accounts loaded via TGET, i.e., Freight, PPTY, or NTS specific.

2. Marine Forces and Command Local & Training/Relocation TAC.

Chapter 8

Training/Relocation Transportation Account Code (TAC) - Reserves

1. Definition. TACs assigned for the exclusive use of the Commander, Marine Forces, Reserve (MARFORRES) to be used for Marine Corps-Funded AMC SAAM/channel/ocean/port handling support of MARFORRES ground unit relocation/air unit relocation (i.e., Unit Deployment Program (UDP)) and support of COMMARFORRES funded training (Program 2A Funding, applies). Operation and Maintenance, Marine Corps Reserve (O&M (MCR)) appropriation supports the Fourth Marine Division, Fourth Marine Aircraft Wing, Fourth Marine Logistics Group, and Force Headquarters Group transportation requirements including:

a. O&M (MCR) supports exercises, drill training periods(both at and away from Reserve training centers), annual training duty, Mobilization Operational Readiness Deployment Tests (MORDTs), and individual training through formal schools, civilian institutions, and mobile training teams.

b. O&M (MCR) includes ToT and travel costs for exercises, inspections, training aides, training directives, operating costs of equipment used in training, officer and enlisted billeting fees at training sites, the hire of commercial vehicles to support operations, and other base support.

2. Transportation Account Code (TAC) Approval. Utilization of any and all MARFORRES TACs must be requested and pre-approved through the HQ level of MARFORRES. Any unit that utilizes a HQ established MARFORRES TAC without prior approval will be financially liable for all shipping and associated costs incurred. The base/station MARFORRES DMO remains responsible to ensure units provide valid TACs on all shipping documents upon acceptance of material for transportation movement. MARFORRES DMO shipping activities will access TGET to determine a TAC's validity.

3. Training/Relocation Transportation Account Code (TAC) - Reserves. The following descriptions are in support of MARFORRES requirements.

Description/Comments:
MARFORRES CMOS PASS MANIFEST (NON BILLABLE)
MARFORRES SPECIAL SHIPPING (MFR COMPT)

MFR OCO

MARFORRES TRAINING REQUIREMENTS
MARFORRES MISC CARGO REDISTRIBUTIONS

4. Point of Contact. HQ MARFORRES

Chapter 9

Personal Property (PPTY) Transportation Account Code (TAC)

1. Definition. As defined in reference (f) Appendix A of the Joint Travel Regulations (JTR), the term "Permanent Change of Station (PCS)" means the assignment, detail or transfer of an employee, member or unit to a different permanent duty station under a competent travel order that does not specify the duty as temporary, provide for further assignment to a new permanent duty station or direct return to the old permanent duty station. PCS movements may be between CONUS permanent duty stations or CONUS to OCONUS or OCONUS to CONUS or between OCONUS permanent duty stations.

2. Policy. PCS orders for Marine Corps Active Duty members require assignment of an SDN, Customer Identification Code (CIC), TAC, and complete LOA containing the fiscal year. Costs associated to PCS orders are to be recorded and tracked utilizing these assigned codes. DMOs are to use the SDN and TAC assigned to orders for tracking, certifying, and billing purposes associated with individual PCS orders. Reference (h) chapter 5 prescribes PCS entitlements.

3. Marine Corps Personal Property Transportation Account Code (TAC). The (\*) in the fourth position designates the fiscal year cited on PCS orders. For example, M710 applies to "Training International through Government Bill of Lading (ITGBL) Transportation (Enlisted)" for orders issued during FY 2010. The fiscal year cited on PCS orders will be the date the orders are issued to the member. Therefore, the TAC selected should apply to the fiscal year of the orders, not the fiscal year of execution. The following Navigation Decision Support Matrix will assist in identifying the correct TAC to be assigned:

PPTY Transportation Account Code (TAC) Decision Support Matrix

Determine the appropriate Household Goods (HHG) TAC by answering the following questions:	...and following these instructions:	
<b>QUESTION</b>	<b>IF YES..</b>	<b>IF NO..</b>

1a. Is the shipment of personal property in connection to a service member's first PCS move? Or 1b. Is the shipment of personal property a Home of Record (HOR) at any junction of the service member's career?	Refer to chart in this chapter - Accession: Assign the TAC associated with the type of shipment and the rank listed on the orders.	The shipment should be funded by another TAC.
2. Is the shipment of personal property in connection to a service member on a PCS assignment to and from a CONUS duty station?	Refer to chart in this chapter - Operational: Assign the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.
3. Is the shipment of personal property in connection to a service member on a PCS assignment to, from or between OCONUS duty stations?	Refer to chart in this chapter - Rotational: Assign the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.
4. Is the shipment of personal property in connection to a service member's involvement in training activities?	Refer to chart in this chapter - Training: Assign the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.
5. Is the shipment of personal property in connection to a Retirement or Separation of a service member?	Refer to chart in this chapter - Separation Retirement and BLUEBARK: Assign to the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.

6. Is the shipment of personal property in connection to a BLUEBARK?	Refer to chart in this chapter - Separation Retirement and BLUEBARK: Assign to the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.
7. Is the shipment in connection to movement of deceased service member or personal effects?	See Chapter 11, paragraph 2. Navy Funded Shipment TACs: Assign to the TAC associated with the type of shipment.	Go to next question.
8. Is the shipment of personal property in connection to a Unit PCS?	Refer to chart in this chapter - Unit PCS: Assign the TAC associated with the type of shipment and the rank listed on the orders.	Go to next question.
9. Is the shipment of personal property in connection to a Marine Corps Reserve Member?	Refer to chart in this chapter - Reserve Personal Property TACs: Assign the TAC associated with the type of shipment and the rank listed on the orders.	Contact PPTY POCs listed at the end of this chapter.

Chapter 10

Personal Property (PPTY) Transportation Account Code (TAC) -  
Locally Funded

1. Definition. The following guidance is to be used for personal property shipments to/from OCONUS locations for military personnel on TAD/temporary duty and for shipments of civilian employees traveling (at the expense of Marine Corps local activity funds) to/from OCONUS locations for both TAD and PCS. Local O&M funds are normally used for these movements and local bases and stations will consult the applicable activity below TAC assignment. Once obtained, the TAC will be assigned for use on both CBL and GBL documentation, as well as for Transportation Control and Movement Document (TCMD) documentation for movement overseas via the DTS. Local personal property shipping offices must use the TAC obtained through consultation with below TAC/Resource Manager for all PCS shipments of civilian personnel and TAD shipments of military officers and enlisted personnel.

Chapter 11

Navy Funded Shipment Transportation Account Code (TAC)

1. Definition. The appropriate Navy TAC will be assigned to those Marine Corps shipments where the Navy is responsible for transportation funding.
2. Navy Funded Shipment Transportation Account Code (TAC)

Description
Shipment of remains of deceased Marine Corps personnel.
I, III MEF Units and Attached Reserve Units redeploying/deploying by all modes for Unit Line Number (ULN) or Time Phased Force and Deployment Data (TPFDD) cargo.
II MEF Units and Attached Reserve Units redeploying/deploying by all modes for ULN or TPFDD cargo.

\*\*\*\*\*  
PLEASE READ FOR ALL USMC UNIT MOVES /DEPLOYMENTS/ REDEPLOYMENTS  
\*\*\*\*\*

a. In accordance with reference (h), funding for transportation of JCS directed or Fleet Commander directed deployment/redeployment of Marine Corps air and ground units ISO contingency operations or training/readiness, via all modes of transportation, is the responsibility of the Fleet Commander. Navy funded TACs have been established for inland transportation charges from origin activities to either a centralized redeployment/deployment area and/or as directed to Aerial Port of Embarkation (APOE)/Sea Port of Embarkation (SPOE). In addition, port handling charges that may arise in the redeployment/deployment phase for Fleet Marine Force (FMF) Unit Line Number (ULN) or Time-Phased Force and Deployment Data (TPFDD) cargo are included.

(1) I, III MEF Units and Attached Reserve Units redeploying/deploying by all modes for ULN or TPFDD cargo. All TAC requirements must include the purpose of the movement, what OCO mission is being supported, what kind of service is required, cost estimate and date funding is required. This information must be emailed to the COMPACFLT Code N00F152 Office for approval (see below POC information). This TAC guidance does not support Sustainment movements.

(2) II MEF Units and Attached Reserve Units redeploying/deploying by all modes for ULN or TPFDD cargo. All TAC requirements must include the purpose of the movement, what OCO mission is being supported, what kind of service is required, cost estimate and date funding is required. This information must be emailed to the COMUSFLTFORCOM Code N02F31C Office for approval (see below POC information). This TAC does not support Sustainment.

b. Transportation costs for the movement of aviation procured materiel funded by Navy appropriations are chargeable

to the appropriate Navy TAC. Contact the Navy TAC Coordinator for instructions.

c. For MARFOR aviation unit movement, transportation costs for the movement of all organic supplies and equipment of the unit will be charged to Navy funds/TAC as directed by the appropriate fleet commander.

d. SDT costs for the movement of Marine Corps materiel funded under the appropriation 17\*1106.27A0, Base Operations (Marine Corps Aviation Activities), are chargeable to O&MMC, TOT, as indicated in Chapter 4. All supplies and equipment in support of aircraft are funded by the Navy; however, all ground support supplies and equipment (i.e., tugs, forklifts) known as yellow gear, will be funded by the Marine Corps.

e. Shipments of urine samples by the Naval Medical Command or Naval Medical Command-sponsored activities are funded by Local Commands.

### 3. Points of Contact

a. NKAL, Navy TAC Coordinator: 757-443-5322 (DSN 646), NAVSUP WSS, Norfolk, VA, TAC\_Helpdesk@navy.mil,

b. Pacific Fleet Commander 808-474-5862

c. Atlantic Fleet Commander 757-836-3120

## Chapter 12

### Navy Working Capital Fund (NWCF) Transportation Account Codes (TACs)

1. Definition. The NWCF-MC, Supply Management Activity Group (SMAG) funds the FDT of Marine Corps-managed items identified in supply records, publications, and price lists by management code 1, 2, 3, 4, 5, or 6; and echelon code 8 or 9 (e.g., 28 or 29). NWCF-MC material consists of consumable and reparable items. NWCF-MC FDT covers the initial movement of material from NWCF-MC procurement for direct delivery to a customer.

SDT for NWCF-MC SMAG materiel is initially funded by Defense Logistics Agency (DLA) (i.e., movement from Remote Storage Activities, such as MCLB, Albany and MCLB, Barstow to WCF SMAG customers worldwide) and later reimbursed by NWCF-MC SMAG.

Purpose:	FM POC:
Used for NWCF-MC, SMAG material purchased with appropriation 97X4930.NC2A and as directed by Marine Corps Logistics Command (MARCORLOGCOM).	229-639-6451

2. Navy Working Capital Fund Transportation Account Code (TAC). The NWCF-MC Depot Maintenance Activity Group (DMAG) organization is authorized to utilize appropriate TAC.

Purpose:	FM POC:
ALBANY MAINTENANCE CENTER NWCF	229-639-6289
BARSTOW MAINTENANCE CENTER NWCF	

3. Point of Contact. For any unresolved issues or questions after contacting the respective TAC/Resource Manager and accessing and referencing TGET, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041)

Chapter 13

Special Transportation Account Code (TAC)

1. Definition. Special TACs are those assigned to movements of materiel for instances that are unique and for exclusive use. Special TACs are only to be used when directed by competent authority. Additionally, Special TACs are not necessarily for DMO/shipping activity use. See below for details.

2. Special Transportation Account Code (TAC)

Description
Non-significant TAC (M000) used by port personnel when shipments are received at ports with invalid or missing TACs, and then only after interjection of the shipper or Marine Corps clearance authority. NOT TO BE USED BY SHIPPING ACTIVITIES.
For air manifesting and In-Transit-Visibility (ITV) purposes and OIF/OEF INTRA-Theater surface movement. NOT APPROVED FOR CONUS DMO USE.
Used by the MARCORLOGCOM, TVCB, Albany, GA, to identify the Military Sealift Command (MSC) accessorial charges not included in the tariff rates for cargo moved in commercial (SEAVAN) containers. Paid by local funds with a copy forwarded to MARCORLOGCOM, TVCB.
JCS directed/coordinated exercises funded by JCS. Last two positions of TAC are the two-letter abbreviation of the exercise, (e.g., YMCG (JCS TAC for Cobra Gold)). Must have JCS authorization before use. Questions pertaining to this TAC should be directed to Joint Staff JETP 703-695-5745 (DSN 225).
Research Development Test & Evaluation (RDT&E) SDT TAC for Direct Reporting Program Manager, Advanced Amphibious Assault (DRPM AAA) support of Amphibious Vehicle Test Branch (AVTB) program using R&D funding. Questions pertaining to this TAC should be directed to 703-432-3764.
RDT&E SDT TAC for DRPM AAA funded support of EFV program using R&D funding. Questions pertaining to this TAC should be directed to 703-432-3764.
Non-billable TAC for BIC SDDC Stevedoring charges outside of normal billing rate structure. NOT APPROVED FOR DMO USE.

3. Point of Contact. For any unresolved issues or questions after contacting the respective TAC/Resource Manager listed above, please contact the Marine Corps TAC Coordinator: 703-695-9041 (DSN 225-9041).

Revisions

Revision Number	Revision Date	Page Number	Revision Action
1	30 Sep 20	Title Page	Created FY-21 Title Page to initiate authority to use FY21 TACs.
		3-1	Updated SYSCOM FDT email address.
		4-4 and 4-5	Updated the charts that identify HQMC SDT TACs.
		5-1	In paragraph 1, identified three distinct sources responsible to fund OCO SDT shipments: Navy, HQMC, or MARFORs/local units.  Removed chart from paragraph 3.
		5-2	Removed TAC M2WB and updated it to MTQG from paragraph 4.  Removed chart from paragraph 5.
		5-3	Removed chart from paragraph 6.  In its entirety, removed paragraph 7 entitled Reconstitution and Rebalancing.
			Re-designated paragraph 8 to paragraph 7. Also, specifically identified the Marine Corps TAC Coordinator as the poc to provide TACs for HQMC SDT OCO funded movements.
2	1 Dec 20	5-3	Added paragraph 7 to identify TAC for movement of material to/from warehouse under MAP-K.  Added paragraph 8 to identify TAC for enterprise level returning from AOR as directed by LOGCOM.

6	26 Jul 22	4-5 4-7	Added TAC M2LZ. Added TACs M2UA and M2UX.
7	30 Sep 22	Title page  All pages  4-4 and 4-5  4-7	Created FY-23 Title Page to initiate authority to use FY23 TACs.  Updated page dates to 30 Sep 22  Updated the charts that identify HQMC SDT TACs, to include LOGCOM TACs for depot maintenance movement.  Changed SECREP TACs between serviceable and unserviceable. Updated Humanitarian TACs to direct users to contact MC TAC Coordinator for use when needed.
8	30 Sep 22	4-3	Updated Table 4-1 to capture TAC M2AP.
9	3 Oct 22	4-4	Updated Table 4-2 to capture program manager level description name changes: Fire Supt Systems/M2SE/142 and Long Range Fires/M2SZ/144.
10	1 Jan 23	4-4	Updated Table 4-2 to remove TAC M2SG and description from PEO Digital. Only TAC M2SA in use.
11	18 May 23	1-4	Updated paragraph 17 to reflect DAI TAC processes versus SABRS.
12	30 Sep 23	Title page  All pages  1-2  4-4 and 4-5	Created FY-24 Title Page to initiate authority to use FY24 TACs.  Updated page dates to 30 Sep 23  Paragraph #7, notes a "Leave Blank" statement to update later with a letter of authorization change/expansion.  Updated the dates of the chart and identified the HQMC SDT TACs.

13		1-2	Paragraph #7, updated extensively to reflect letter of authorization requirements in the DAI environment.
14	25 Mar 24	4-4	Table 4-2 Updated to reflect SYSCOM org restructure.
15	10 Apr 24	4-4	Table 4-2 updated to reflect more SYSCOM org restructure changes: -specific PM# identifiers by adding the (.) and a number -administrative PM description name changes -removal of TAC M2SL (AC2SN)
16	30 Sep 24	Title page	Created FY-25 Title Page to initiate authority to use FY25 TACs.
		All pages	Updated the page dates to 30 Sep 24
		4-4 and 4-5	Updated the title chart dates to FY25 and identified the HQMC SDT TACs. TAC M2SL is reinstated for AC2SN use for FY25.
